A rustic living room with a fireplace, wooden beams, and a large sofa. The fireplace has a wooden mantel with the word "Escondido" written on it. The room features a large wooden coffee table, a large sofa with a patterned throw, and a dining area in the background. The ceiling has exposed wooden beams and recessed lighting. The walls are a neutral color with several framed pictures. A large window with blue curtains is on the left. The overall atmosphere is warm and inviting.

About Us

H and H, Outfitters owned and operated by Alex and Zeke Hayes, in partnership with the Badra family from Villa Dolores have joined forces to operate ESCONDIDO LODGE .

The Badra family are the pioneers in pigeon shooting in the area and have been in business for 20 years.

Escondido Lodge is located in the western side of Cordoba province in the largest irrigated area in Argentina.

The peanut, sunflower and sorghum fields in the area together with many acres of roost make this area an incredible habitat for doves and pigeons.

The pigeon season runs from the last week in March to the first week in August. The dove season runs year round.

The lodge has eight spacious bedrooms with private bathroom. Four of the bedrooms were built this year and the main lodge was fully renovated in 2018.

The driving distance to the fields ranges between 15 and 50 minutes in our luxury 9 passenger vans with air conditioning, refreshments and two-way radios. Each client shoots with their own experienced professional bird boy, who will provide shells, act as a loader, retrieve downed birds and keep cool drinks ready. Shooting continues until noon, when the group gathers in a shady grove of trees for a traditional Argentine asado (barbecue) complemented with salads, gourmet desserts and fantastic wines.

Lunch can also be served at the lodge where you can enjoy a siesta in your air conditioned bedroom.

The shoot in the afternoon continues until about 6 pm. At the lodge, after the hunt, we welcome the shooters with appetizers and a refreshing towel.
